

Sweet Little Dreamer

(From Black Coffee)

[Verse 1]

Dark red lips, her skin is pale
Her whole life is a fairytale
Wears her smile as she's dancing in the sky
There ain't no need to follow rules
In a world so colorful
All the others just see black or white

She needs to carry on
For the rest of her days
Give this world a shiny glaze
Dream this life away, dream this life away!

[Chorus]

Sweet little dreamer
You have gone so far
Sweet little dreamer
You have gone so far
Sweet little dreamer
Look how far
Reach for the sky and touch the stars
Sweet little dreamer
You have gone so far

JUNKYARD DRIVE

[Verse 2]

Restless days, and dreamless nights
Searching for the magic lights
Those that filled the glow into her eyes
Her head is caught by fantasy
She ain't the girl she used to be

Cause more wants more, but more was not enough

Questions in her head
Did the haze lose its fun?
Will you ever stop hiding?
Are you always on the run, always on the run?

[Chorus]

Sweet little dreamer
You have gone so far
Sweet little dreamer
You have gone so far
Sweet little dreamer
Look how far
Reach for the sky and touch the stars
Sweet little dreamer
You have gone so far

JUNKYARD DRIVE

[Post Chorus]

What can you do, when your dream turns into a nightmare

Who's gonna sing for you? You need your lullaby

[Chorus]

Sweet little dreamer

You have gone so far

Sweet little dreamer

You have gone so far

Sweet little dreamer

Look how far

Reach for the sky and touch the stars

Sweet little dreamer

You have gone so far
